## What the government is doing about electric cars

### Federal

Interministry Standing Committee is developing an electric mobility road map with industry (*Electric Mobility Canada, NRCan, Transport Canada, Environment Canada and Industry Canada*)  
NRCan offers funding for green transportation technology development and public education  
Transport Canada proposed restrictions on LSVs Dec 20, 2007 - now reviewing public concerns  
Transport Canada - offers rebates for hybrids – but it ends this year  
Transport Canada - fuel consumption standards omit electric cars

### BC

No PST is charged on hybrids, electric conversion kits, or electric bicycles  
Now studying electric vehicle energy consumption and emissions in partnership with BC Hydro  
Pilot test of plug in hybrid electric cars is planned  
[www.hybridexperience.ca](http://www.hybridexperience.ca) site is now available

### City of Vancouver

Plugs for electric bicycles in bicycle storage rooms is now required in new buildings  
Plugs for electric cars in single family garages is proposed  
Plugs for electric cars in condos is proposed  
Half price parking is offered for Electric Cars and hybrids in city parking lots  
Plug installation for electric cars in major city developments now underway (False Creek and N. Fraser)

### City of Burnaby

Is hosting Vancouver Electric Vehicle Association's Ride Electric Vehicle show June 7th
